

**NOTICE 1376 OF 1998****BOARD ON TARIFFS AND TRADE****NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF ACETAMINOPHENOL ORIGINATING IN OR IMPORTED FROM FRANCE, THE UNITED STATES OF AMERICA AND THE PEOPLE'S REPUBLIC OF CHINA**

The Board on Tariffs and Trade received a petition that acetaminophenol, originating in or imported from France, the United States of America and the People's Republic of China (PRC) is being dumped on the Southern African Customs Union (SACU) market, causing material injury (or threat of material injury) to the SACU industry concerned.

*The petitioner*

The petition was lodged by Fine Chemicals Corporation (Pty) Ltd, which is the only domestic manufacturer of acetaminophenol in the SACU. The petitioner alleges that it cannot compete with the low prices charged by the importers and that the allegedly dumped products are causing material injury and/or a threat of material injury. The petitioner submitted sufficient evidence and established a *prima facie* case to enable the Board to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury (or threat of material injury), and causality.

*The product*

The product allegedly being dumped as acetaminophenol, classifiable under tariff subheading 2924.29.90, originating in or imported from the countries stated above.

*The allegation of dumping*

The allegation of dumping is based on the comparison between the normal value in and the export from the respective countries, as follows:

**United States of America**

The export price for the USA was determined based on a quote obtained from the importer acting as agent for the American manufacturer. The normal value for the USA was obtained from the price list of the American manufacturer.

**France**

The export price for France was based on the f.o.b. price of the imported acetaminophenol, as calculated from the import statistics obtained from the South African Revenue Services. The normal value for France was obtained from a quote given to a retailer in France by the manufacturer in France.

**People's Republic of China**

PRC is regarded as a non-market economy. The USA was therefore nominated by the Petitioner as the third "surrogate" country as it was alleged that normal value information that will be verifiable is available in this country which has an industry at a similar level of development to that of PRC. The normal value was determined on the basis of a price list of the manufacturer of acetaminophenol in the USA and the export price was obtained from a quote given by the manufacturer of acetaminophenol in the PRC.

The normal values obtained were compared to the export prices from the relative countries and on this basis the Board found that there was *prima facie* proof of dumping in respect of each named country.

*The allegation of material injury (or threat of material injury) and causal link*

The petitioner alleges and submitted sufficient evidence to show that the imports in question are suppressing and depressing its selling prices, and are gaining market share at the expense of the SACU industry. It is further alleged that the prices at which these imports are sold in South Africa result in lower profit margins and/or losses being incurred by the petitioner. On this basis the Board found that there was *prima facie* proof of material injury (or threat of material injury) and causal link.

*Period of investigation*

The period of investigation for purposes of determining the dumping margins in the respective exporting countries or countries of origin will be from June 1997 to May 1998. The period of investigation for purposes of determining injury will be for the years 1994/95, 1995/96, 1996/97 and for the period September 1997 to February 1998. If there are subsequent events that are relevant to injury the Board may later request further, more recent information.

*Procedural framework*

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Board has begun an investigation in terms of section 4 of the Board on Tariffs and Trade Act, 1986 (the BTT Act). The Board will conduct its investigation in accordance with the BTT Act and the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement). A copy of the Anti-Dumping Agreement is available from the Board's office on request.

In order to obtain the information it deems necessary for its investigation, the Board will send non-confidential versions of the petition and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified. Importers, exporters and other interested parties are invited to contact the Board as soon as possible in order to determine whether they have been listed and have been sent the relevant documents. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

#### *Non-market economy countries*

It should be noted that there is a different questionnaire for exports from non-market economy countries. Please ensure that you are responding to the correct questionnaire.
