

**NOTICE 201 OF 2011****SUNSET REVIEW OF THE ANTI-DUMPING DUTY ON PAPER INSULATED LEAD COVERED ELECTRIC CABLES ORIGINATING IN OR IMPORTED FROM INDIA: FINAL DETERMINATION**

In accordance with the provisions in Article 11.3 of the World Trade Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade, definitive anti-dumping duty shall be terminated on a date not later than five years from the date of imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry, that the expiry of the duty would likely lead to the continuation or recurrence of dumping and injury.

On 26 June 2009, the International Trade Administration Commission (ITAC) notified interested parties through Notice No. 902 of 2009 in *Government Gazette* No. 32333, that unless a substantiated request is made indicating that the expiry of the anti-dumping duty on paper insulated lead covered electric cables originating in or imported from India would likely lead to the continuation or recurrence of dumping and material injury, the anti-dumping duty on the subject products will expire on 10 November 2010.

The sunset review investigation was initiated pursuant to Notice No. 999 in *Government Gazette* No. 33654 published on 22 October 2010. Initiation letters to interested parties were sent out on 22 October 2010.

No importer or exporter responded to the Commission's sunset review questionnaire.

After considering all the information submitted by the Applicant, the Commission issued essential facts letters indicating that it was considering making a final determination that the expiry of the anti-dumping duty on paper insulated lead covered electric cables originating in or imported from India would likely lead to the recurrence of dumping or material injury.

There were no comments received to the essential facts letters.

After considering best information available, the Commission made a final determination that the expiry of the anti-dumping duty on paper insulated lead covered electric cables originating in or imported from India would likely lead to the recurrence of dumping or material injury.

The Commission therefore recommended to the Minister of Trade and Industry that the anti-dumping duty on paper insulated lead covered electric cables originating in or imported from India be maintained as follows:

Tariff Sub-heading	Description	Imported from or originating in India	Rate of Anti-Dumping duty
8544.60	Electric Cable (Excluding ignition wiring sets and other wiring sets of a kind used in vehicles, aircraft or ships and co-axial cable), insulated with paper and covered with lead, for a voltage exceeding 1 000V.	India	65.47%

The Minister approved the Commission's recommendation. The Commission's detailed response for its decision is set out in Commission's Report No. 365 (Final determination report).
